They had a code for almost Everything

They had a secret code for almost everything . . . a code to meet here, a code to meet in the back, in the dungeon, or just to take a risk and do the dirty where they stand.

Yup . . . Eren and Levi had a code for almost everything . . . except how they handled their relationship beyond the sex. The sex is all they had built their relationship on, and now they were feeling the consequences . . . at least Levi was . . .

"Get the hell away from me you shitty brat!" Yelled the leader of the squad, aka humanities strongest aka Captain Levi. He was upset because at this very moment, Eren Yeager was crying to have him stay for the night and just talk . . .

"Talk about what? Talk about titans?" Levi had asked earlier when Eren had first suggested they talk for the night, instead of having their regular sex sessions.

Levi was pissed, he wanted to get his relief and get out. However, in all these sexual encounters, he hadn't bargained for this . . .

"I knew I would have had a better outcome by screwing a dog" said the captain with knitted eyebrows and a disappointed frown.

Eren on the other hand was more enthusiastic and he grabbed his Superior's hand and led him to the bed and sat himself on the edge before patting the space beside him with a sweet smile and dotting big green eyes.

Then the most irritating part came . . . the questions.

"Do you love me?"

A disgusted look overcame his indifferent face . . . "Love? Who the hell said anything about love? Where did you ever find this notion in all the times we've done it? I sure as hell never gave you any damn impression or led you on to think such weird and disturbing things"

Maybe that question was a bit too soon for their fragile affair, thought Eren as he continued on his pursuit of knowledge.

"Wha-What's your favorite colour?"

"Red"

"Okay. See? This is a start." Eren encouraged with a sympatric smile, because his captain made it seem like the hardest thing in the world to open up to people.

"I like red because it represents blood and that's what I hope to shed in the battle before us."

Suddenly Eren felt his eyes shine in love and admiration for the older man that stood before him and out of pure instinct, he hugged his lieutenant tightly and shouted, " This is why I love YOU!"

They both collapsed in the bed together in a great big mass of mingling bodies.

"Can we have sex now?" Levi asked hopefully.

Eren laughed and said "Yes! We can have sex now!"

He would ask his captain more questions later and get to know him better, so that one day he could know just what to do to make him smile or at least bring some sort of happiness to his life, one day at time . . .

Should this story continue? Be Honest . . .
